places in moderate request. All the Bankers mention an improved condition of feeling, and a better state of Commercial affairs. Our city is all well enough; the only fear for the future being from other points. Bankers continue unwilling to discount, and Commercial men indisposed to operate, while the future remains so uncertain; still, they hope for the best, and are gaining confidence from day to

There was more natural and healthful movement in Monetary affairs yesterday than on any previous day of the month. The Money market was quite close; but there seemed to be no particular pressure in any quarter. In outside circles there is little Money to be had, and when loaned, 26021/2 per cent. per month is about the rate charged and cheerfully paid.

Uncurrent Money is still growing better, though Illinois, which was purchased yesterday morning at 5, was again advanced to 7 discount in the afternoon. Rates remain irregular, but are about as follows :

Indiana Stock, 1/@1; Pennaylvania (interior), 5; Virginia, Wheeling and Branches, 5; other solvent Virginia, 10; Missouri, 5@7; Iowa, 5; Wisconsin, 7; Illinois, 7; Maryland (interior), 5; Tennessee, old Banks, 5; free Banks 10@30; Michigan and Canada, 5; Alabama (Mobile), 10; Alabama (interior), 20 the Carolinas, 15@20; and Georgia, 2@10 discount.

The suspension of the South Carolina Banks had no effect upon our Money market or upon the rate of the Notes. The institutions of that State have been regarded as suspended for some time."

The city Produce market is still very dull, and yesterday evinced few changes. Flour was in limited demand, good superfine being held at \$4 30 to \$4 35, and \$4 40 to \$5 for extra. Whisky was dull and 1/c. lower, the sales of the two past days being 2,900 brls. Sugar and Molasses declined, but Coffee was unaltered. Wheat, Oats and Rye were steady, but Corn and Barley continued dull.

Hogs were even duller than usual yesterday; the receipts of the past three days being large. As holders were anxious to sell. prices further declined; sales being made at \$5 to \$5 25. At the close a large lot would not have commanded over \$5, though holders asked the extra 25c. The sales of the two past days were about 2,500 head at \$5 to \$5 50 and \$5 55-the latter rates for beavy animals.

The following are the Imports and Exports of the various articles during the forty-eight bours ending yesterday noon: Imports—Apples, 1,443 barrels; Barley, 3,473 bushels; Batter, 340 packages; Candles, 220 boxes; Corn, 2,339 bushels; Cheese, 4,279 boxes; Caffee, 402 bags; Flour, 3,403 barrels;

Thursday's New York papers say of

Wednesday's Stock market: The Stock Exchange opened at a decline of 1 per cent, from the last prices of yesterday on the Railway speculatives, and was then fairly supported through the dealings of the day until near the close in the afternoon, when a beavy feeling was experienced. The demand was rather firmer on some of the State Stocks, and also for Government 5 per cents, but only a moderate business could be accomplished. The political feeling of today is, if any thing, rather quieter, partly in the hope that the President's Message on Monday, and the first indications from Congress, will prove of a conciliatory rather than irritating nature on the Southern question. At the same time, the disposition outside the Stock Exchange is evidently to unusual caution, most of the orders to buy being accompanied with the cash, or with a view to s quick turn in the market, so that most of the outstanding Time-contracts of October

and the early part of this month are closed up as they mature without renewal. Thursday's Times thus speaks of Wednes-

day's New York Money matters: The sales of Exchange on London to day advanced to 102@1033 for Merchant Bills; 10334@10434 for current Bank Bills; and 105 @105% for standard resident Bankers. The rates for Money outside of Bank continue rates for Money outside of Bank continue nominally at 12 per cent on first-class Paper, but with fewer lenders than before the pressure, and only a moderate offering. The merchants are equally well accommodated through Bank, where the offerings of Paper within reasonable date and of undoubted credit, are falling off. To the Stock Brokers Money at eall comes easy at 7 per cent. We believe, from the signs this afternoon, that the applications at Bank on Friday (to-mortow being observed as a strict holiday) will be greatly reduced from Tuesday. It is possible that the advancing tendency of Foreign Exchange may induce the importers to apply for ilberal discounts, but the impression is they have no immediate occasion to press forward their remittances, especially as their orders for Goods for the spring trade have unquestionably been much reduced.

The Chemical Bank of New York has been practically expelled by the Clearing-house there. After to-day the other Banks will

refuse all interchanges with it. The aggregates of last week's Boston Bankstatement are: Capital Stock, \$38,231,700; Loans and Discounts, \$12,719,600; Specie, \$3,890,000; due from other Banks, \$7,915,600; due to other Banks, \$8,335,000; Deposits,

\$17,964,700; Circulation, \$7,346,000. Tuesday's New Orleans papers mentions so improvement in Money, which remained very close. The transactions in Exchange on Monday were large; clear Sterling selling at 101@102. New York Sight Checks were disposed of at 146914 dis. The Picathing moving, and on reaching the spot saw thing moving, and on reaching the spot saw this friend, who asked, "Did you shoot me on purpose?" to which Peters replied that he is the Cetton factorage business, J. NEW YORK DRY GOODS MARKET,-The Inependent speaks of the New York Dry Goods market fo the past week :

The transactions in Dry Goods have been light on the whole, yet there has been a fair demand from the East, North and West; and, making a due allowance for the high rates of Exchange, the collections are remarkably good. Myrchants feel it a deep moral obligation to pay. Trade in the interior of the West never was better, and the leading Dry Goods houses are receiving. leading Dry Goods houses are receiving many orders for seasonable goods,

many orders for seasonable goods.

Domestic goods are principally active for deliveries of previously given orders. In Prints there is little doing, but prices are steady for desirable styles. Cotton Shirtings and Sheetings, brown and bleached, are in moderate demand for the distributing trade. Stocks show no accumulation but

trade. Stocks show no accumulation, but the orders for future delivery are fast run-ning out. Prices are steady. In Drills the export demand is light, and there is some accumulation making of stock. The China demand has been oversupplied. Cotton Duck is inactive; stock large, but prices without change. Shawls move mod-erately. Long Shawls enjoy the preference and many orders for future delivery have yet to be filled—Square Shawls, suitable for the South, are without inquiry.

Fancy Cassimeres are full, and most de-scriptions of Woolens are inactive, but with-

out pressure to sell, in spite of a large over-stock. Cloths and Doeskins and Satinets are rather weak. The demand for Delaines is mostly over-leaving, however, but a slight stock. Ginghams are in good supply

In Foreign Goods the demand slumbers The stock of seasonable goods is much re-duced, and is very small. In view of the troubles at home, and the anticipate troubles in England and France, the im porters are inclined to be very cautious. The goods now arriving are going into public warehouse. French staple Silks are in steady demand, at steady prices, but other kind are inactive at wholesale. Broche Shawle sell moderately. There appears no disposi-tion to sacrifice prices on any goods in sur

French Cloths, suitable for the season, in great demand. German Cloths, of the lower kinds generally used, are not freely wanted. The clothing trade is depressed from the state of the Southern trade, which usually is active at this season. English stapic Goods are steady in price, with a moderate demand. The jobbing trade do not complain, and only partially suffer from the state of things in the South. The city trade is rather active.

NEW YORK CATTLE MARKET- Thursday November 29.— The Live Stock markets were over-supplied yesterday, especially with Beef Cattle and Sheep. The total receipts at the various city yards for the week ending yesterday, numbered 5,210; 95 Milch Cows; 465 Veal Calves; 12,602 Sheep and Lambs, 12 431 live Hogs—total, 30,803. At yesterday's general weekly market, there was a fair demand at previous prices for first-grade Beeves, of which there was a scarcity. Common and poorer qualities were greatly in excess, and sold at irregular rates, generally at 14@1/2c. per pound ne lower than the previous week. Five thou sand Bullocks are quite too many for poultry week. Milch Cows are not in much request and former rates are barely surained under diminished receipts. Veal Calves being in smaller supply, sold well at last week's prices. Sheep and Lambs are too abundant to sell brigkly. Even at lower rates larger to sell briskly. Even at lower rates larger numbers remain unsold. Hogs also are in excess of the requirements of the market,

and sell at reduced quotations.
